

# CLASSICAL CHAMOMILE

**WARNING:** STRONG RELAXANT – highly likely to cause feelings of peace and serene tranquility.

## Indications/applications:

If life's little (or big) problems have you overstressed, jumpy, strung out and prone to panic attacks – it's Delos to the rescue!

## Therapeutic benefits:

General tension banisher, anxiety soother, stress reducer, serenity producer, and sleep inducer. Promotes mellow moods and relaxed frames of mind – also feelings of well-being and inner harmony. Particularly effective for manic personalities, workaholics and nervous wrecks. Idyllic antidote for accidental overindulgence in Delos' **Classical Caffeine** album (DE 1628).

## (IN)Active ingredients:

Contains cool, calm and sweetly laid-back music by Bach, Mozart, Dvorak, Debussy, Hovhannes, and other tunesmiths who knew how to make therapy of their art.

## Side effects:

May induce helplessly beatific (or even goofy) smiles and audible sighs. Strong risk of idyllic distraction, to include (but not limited to) helpless daydreams, ecstatic fantasies, and strong urges to indulge in a siesta.

## Recommended dosage:

Administer as often as needed and at any time of day (or night) to patients of all ages: babies, children, adults or seniors; anybody who could use some chilling out ... especially effective at bedtime (or naptime). Overdose impossible.

## Expiration date:

None; great music lasts forever.

## Cost per dose:

Expense diminishes with frequent use; you'll never need a refill.

**DE 1629**
